ORACLE ACADEMY: SOFTWARE, TRAINING, RESOURCES AND MORE

› Oracle Academy prepares students for 21st century careers and provides teachers with world-class training and professional development opportunities.

INTRODUCTION TO COMPUTER SCIENCE AND BUSINESS

Formerly known as the Oracle Academy, this offering helps students at technical, vocational and high schools develop fundamental database, programming, and professional skills. Teachers also benefit from rigorous training and professional development, helping them create integrated curricula focused on student success.

[Brief](#) ▶

ADVANCED COMPUTER SCIENCE AND BUSINESS

Formerly known as Oracle Academic Initiative (OAI), this offering helps computer science departments select Oracle development, database and application server products for classroom use. This enables institutions to offer cutting-edge technology coursework for degree programs like computer science, engineering, or information systems.

ENTERPRISE BUSINESS APPLICATIONS AND PROCESSES

Formerly known as OAI Applications, this offering helps faculty at college-level business schools integrate enterprise applications into business and computer science degree programs. Participating students are prepared for a variety of business and management roles in industries such as retail, finance, manufacturing, healthcare and telecommunications.
